What potential environmental issues and impacts are you concerned about?

I can see many benefits of having the Railroad.  
Just to mention a few of my ideas why it would  
improve things #1 Less Congestion on our Highways with  
fewer coal Trucks going through our towns #2 Less  
wear and tear on the roads. #3 Less air Pollution from  
less Traffic. #4 Help existing business ~~and~~ to be more  
competitive with freight cost. #5 Help bring in more  
business to our Area #6 More Jobs #7 Improved  
Safety with less Congestion on Highways.

I appreciate SCAOG for reaching out to the  
surround communities and designing a preferred route alignment  
I support the route that has been designed and  
can see some good issues with going this way.  
I request that the environmental review and final  
decision conclude at the earliest possible time.
